

## Agrochemical Physical Compatibility Guide

These tank mixes have been tested for physical compatibility at recommended rates of use and will mix with each other. No tests have been undertaken on crop safety, product performance or sprayer tank compatibility, therefore use is at the grower's own risk. When using tank mixes always follow the statutory conditions of all tank mix partners. Use plant protection products safely. Always read the label and product information before use. The tables contain sections on agrochemical active ingredients that have been tested, the OME X range of products and tank mixes known to be incompatible; please pay particular attention to this final section.

### Tank Mix Guidelines

Ensure sprayer tank is clean and free from residue of any previous products • Half fill the sprayer before adding products. • Allow time for one product to fully disperse before adding the next. • Spray the mixture straight away and avoid leaving in the sprayer overnight. • Check the inside of the sprayer tank for any residue after emptying each tank. • The source and quality of water can have an impact on the physical compatibility of different chemicals • If in doubt conduct a bucket test prior to filling the sprayer.

For further information on OME X products and compatibilities, refer to [www.omex.co.uk](http://www.omex.co.uk) or contact OME X Agriculture Ltd on **01553 760011**.

## Protein Plus

Physically Compatible	
Third party products (active ingredients)	OMEX Range
Abermectin	Kelpak
Alconifen	Kickstart
Azoxystrobin	Vitomex
Bentazone	K50
Benzovindiflupyr	Magnesium Plus
Chlormequat	Micromax
Clopyralid	Folex K
Cymoxnil + Mancozeb	Folex Mg
Cypermethrin	Folex Se
Fluroxypyr	Folex Zn
Fluxapyroxad	Manganese 17.5%
Folpet	Sulphomex
Iodosulfuron-methyl-sodium + mesosulfuron-methyl	Gard S
Mancozeb	NA13
Mancozeb + Metalaxyl - m	SW7
Mandipropamid	Zynergy
Mefentrifluconazole	
Mepiquat (as chloride), prohexadione calcium and pyraclostrobin	
Metazachlor	
Metconazole	
Metrafenone	
Metribuzin	
Pinoxaden	
Pirimicarb	
Prosulfocarb	
Prothioconazole	
Pyraclostrobin	
Sulphur	
Tebuconazole
