Job Profile			
<p><u>The Company</u></p> <p>OMEX is the market leader in liquid fertilisers in the UK, manufacturing and exporting a unique range of plant nutrients and crop health promoters, nationally & internationally.</p> <p><u>The Role</u></p> <p>We are looking to recruit a motivated, enthusiastic individual who can work under own initiative and work well as part of a team for a highly successful fertilizer/chemical manufacturer in Lincoln.</p> <p><u>General Duties</u></p> <ul style="list-style-type: none"> • To deal with and manage to day to day running of reactive and preventative on site electrical maintenance • To perform effective hands-on electrical maintenance in a manner that upholds the quality of the operation, focussing on safety, output, cost effectiveness and the preservation and improvement of the site machinery and property within budget. • To ensure that all electrical components, site machinery and regulations are kept up to date and in order. • Be able to read, understand and interpret electrical drawing and schematics. • Operate installation and maintenance of electrical systems, pipe work systems and related ancillary equipment providing, hot & cold water, heating, cooling, refrigeration, compressed air waste management services and buildings, etc. • Be able to fault find and diagnose problems from a mid to high level, both independently and as part of a team. • Work with the team to develop the team's and one's own capabilities, driving cross training to better working practices and continuously improve capabilities and effectiveness. 			

- Continuous review and improvement of Planned Preventative Maintenance (PPM) practices, content and frequency.
- Add value and contribute toward improvements in buildings, plant and equipment reliability.
- Be able to keep good records of work done and any changes made to site and equipment, in conjunction with a CMMS system.
- Ensuring Health, Safety, Quality and Environmental requirements / procedures are observed at all times
- Potential travel to other OMEX UK sites to assist in projects or repair work.

Personal requirements

- A proactive approach with the ability to work without supervision, take ownership, accountability and make decisions
- Have a positive, reliable and consistent “can do” attitude
- Have a high degree of enthusiasm and self-motivation
- Demonstrate a confident, methodical and determined approach
- Be able to work on own initiative and as part of a team
- Have a logical, precise and accurate approach to work and ability to meet deadlines
- Have strong problem-solving skills
- Able to work flexibly, manage time effectively and prioritise workload
- Have strong customer service and communication skills, with excellent interpersonal skills with the ability to build relationships and negotiate with people at all levels
- Excellent communication skills at all levels & conversant in MS office applications
- Clean Driving licence as inter-site travel is a possibility

Qualifications

- Have completed a formal electrical Apprenticeship - Ideally from an industrial background.
- Must have a formal Electrical Qualification, and 18th Edition would be advantageous.

The standard working hours are 7.30am to 5.00pm Monday to Friday. Extra hours and weekends maybe required for large projects.

Benefits:

- Excellent remuneration package, including a Contributory Pension Scheme, contributory health care scheme.
- Provision of all necessary PPE
- Lunch allowance
- Training will be provided where necessary
