Job Profile			

The Company

OMEX is the market leader in liquid fertilisers in the UK who manufacture and export a unique range of plant nutrients and crop health promoters, nationally & internationally.

Role & Responsibilities

We are looking for a self-motivated, enthusiastic and disciplined team member to assist in the operations at our Ipswich site. The objective of the role is to support the storage, blending and tanker loading activities on site. Success in the role relies on flexibility and a willingness to alter working patterns at short notice.

General Duties

- Daily safety checks & inspections
- Loading/discharging of road tankers
- Operating site weighbridge
- Issuing dispatch documentation
- Recording, monitoring and reporting stock levels
- Quayside Shipping operations
- Solubilising and blending of liquid fertiliser
- Routine site maintenance & housekeeping
- Site security checks

Personal requirements

- Good communication skills
- Self-motivated team member, whilst being able to work individually
- Basic computer skills
- Ability to follow procedures & attention to detail
- Ability to work under pressure during busy seasonal work periods
- Full UK Driving License
- Good level of literacy & numeracy

Job Requirements:

The site receives shipments by sea; the successful candidate must be capable of flexibility during these operations and be prepared to change hours at short notice to suit shipping timings.

Standard hours are 45 hours per week (nominally 07.30am -17.00pm). Weekend working and extended hours during our busy periods will be expected.

Benefits:

Excellent remuneration package, including a Contributory Pension Scheme & contributory health care scheme.
